

Sound Picture Cards

Create Picture Cards: Draw animal character on paper or card stock, label it and play characteristic short melody on piano which is represented by card:

Then we create cards for THUNDER, RAIN, LIGHTENING, SWIMMING, etc. For each a performance gesture is developed for the piano.

EACH of these performance gestures are fundamental movements for playing the piano. We develop these in class.

You can do storybooks at the piano and make new SOUND PICTURE CARDS. We will create new animal characters. Create games a scenarios with the cards - - eventually this will lead to more advanced improvisation and music composition.
